

Book 9: Speed Learning

Key Focus:

Learning strategies

Chunking

Visualization

Practice Exercise:

Memorize chord progressions in 3 keys using chunking

Bonus Tip:

Time yourself practicing with a metronome

Accessing Book 9

If you've already bought Pianoforall, log in at pianoforall.com to download Book 9 again. If login fails, check your email for purchase details or contact support. If not purchased yet, you can buy the full course for \$49, which includes all nine books with videos and audios.

 Prefer guided lessons with practice plans, chunking strategies, and video + PDF format?

Practice Exercise Details:

Choose a simple progression like I-IV-V-I and practice it in three keys:

C major: C-F-G-C

G major: G-C-D-G

F major: F-Bb-C-F

Break each progression into chunks (e.g., C-F, then G-C), practice each chunk slowly, then combine. Use visualization to mentally walk through progressions, and use a metronome to build timing.

Bonus Tip:

Use a metronome starting at 60 BPM. Track your accuracy and speed. Increase tempo gradually. Time yourself to monitor improvement and consistency.

Learning Strategies in Book 9:

Book 9 focuses on:

Efficient practice habits

Deliberate repetition and goal-setting

Chunking (splitting information into digestible parts)

Visualization (mental rehearsal)

These methods support quicker internalization of chord patterns and piano routines.

Implementation Table:

Option	Details	Cost	Legal
 Pianoforall Course	Full 9-book course with video + audio	\$49	 Yes
Existing Account Access	Re-download via login if purchased	Free	 Yes
Free Online Tutorials	Piano With Jonny, Christian Howes, Art of Memory	Free / Low	 Yes
Chunking Practice	Practice I–IV–V–I in 3 keys with visualization	Free	 Yes
Metronome Training	Start slow, time yourself, build up tempo	Free	

Option	Details	Cost	Legal
			Yes

Conclusion:

To replenish Book 9: Speed Learning, log in to your Pianoforall account or purchase the course. Use chunking and visualization to memorize chord progressions efficiently. Practice in multiple keys, start slow with a metronome, and gradually build speed. Free resources from Jonny, Howes, and memory forums offer similar learning outcomes if you prefer alternatives.
